Reindictment for Misdemeanor.

The quashing of the indictments against

Young, who were charged with taking bribes from Charles G. Francklyn, while he

was under arrest, relieves these defendants from further prosecution on this charge.

"They were indicted," said Col. Fellows

this morning to an Evenino World re-

porter, "under the only section of the l'enal Code which could make the offense a

felony, and now that these indictments have been disfnissed it ends the whole mat-

have been disfinissed it ends the whole matter.

"They might be indicted for misdemeanor under other sections of the Code if it were not for the fact that this is barred by the Statute of Limitations, which runs for only two years in cases of misdemeanor."

"Then the bribery counts against ex-Warden Keating and Deputy Sheriff McGonigal will also fail?"

"Yes, under Judge Barrett's decision in the Martin case, they will not hold. They can be held liable for a misdemeanor, however, and punished accordingly."

"Will any amendment of the indictments against them be necessary?"

"No, they include the lesser offenses already, and can be held without any further action by the Grand Jury."

Col. Fellows said that the present Grand Jury would continue the investigation into the affairs of the Sheriff's office, and that there might be important developments.
